

SULFUR 15™

8-0-0

GUARANTEED ANALYSIS

Total Nitrogen (N) 8 %
 8% Ammoniacal Nitrogen (N)
 Sulfur (S) 15.0 %
 15% Combined Sulfur (S)

Derived from Ammonium Thiosulfate

For Tobacco Use: Chlorine (Cl) Maximum 0.02%

DIRECTIONS FOR USE

CORN: Early vegetative stage — 16-32 ounces per acre.

COTTON: 4-5 node stage or 1st or 2nd glyphosate application — 1 quart per acre; 9th node or after — 1 quart per acre.

RICE: Flag Leaf — 1 quart per acre.

SOYBEANS: 3rd to 4th trifoliolate — 1 quart per acre;
 early pod set — 1 quart per acre.

WHEAT: Dormancy break — 1 quart per acre.

CAUTION:

STOP, READ LABEL BEFORE USING

Harmful if swallowed. If ingested, induce vomiting and call a physician at once. May cause eye irritation. Avoid contact with eyes. In case of contact, flush eyes with water for at least 15 minutes and seek medical attention. Avoid contact with skin. Wash hands after using. Avoid breathing spray mist. Do not store near feed or food products. Keep children and domestic animals off treated areas until this material has been washed into the soil.

STORAGE AND DISPOSAL

Store in cool, dry place. Store in original container. Keep container tightly closed. Do not reuse empty container. Triple rinse, then offer for recycling or for disposal in a sanitary landfill, or by other means in accordance with local, state and federal regulations.

PHYSICAL OR CHEMICAL HAZARDS

Do not use, pour, spill, or store near heat or open flame. Use adequate ventilation when handling.

Warning. May cause irritation to skin, eyes, and respiratory tract.

Monty's products are recommended as supplements to your current farming practices and are not recommended to replace the nutrients typically added to the soil. We suggest taking a soil and/or tissue test, have a qualified independent lab analyze the samples to determine nutrient levels in your soils and plants, and then follow the recommendations of a qualified CCA, agronomist or dealer.

When tank mixing any Monty's products with other farm chemicals, always read and follow the label directions of the chemical(s) you are considering and administer a jar test and/or a strip test before adding Monty's to your tank mix. When mixing with other farm chemicals, tank mix Monty's only after diluting the chemical according to label directions. Knowing the chemical's "mode of action" (block photosynthesis) or metal content (copper based) will help determine the compatibility of Monty's.

Storage and Handling

Use within 24 hours of mixing with water, chemicals or other products. Keep container closed when not in use. Avoid freezing. Products containing organic materials may settle and should be shaken or stirred if stored. Products containing living organisms should not be stored in direct sunlight or allowed to freeze; should not be carried over from one year to the next; and should be used during the growing season in which it was purchased. Store in a cool, dry place. Refer to the SDS for other safety and handling information.

Limited Warranty

Monty's warrants that this product meets its manufacturing specifications. If it does not, Monty's will, at its option, replace the product or refund the purchase price. In no event shall Monty's be liable for special, incidental or consequential damages or for damages in the nature of penalties. Monty's shall not be liable in any way for claims resulting from any use of this product which is not in strict accordance with all directions, cautions and warnings on the label or labels. For products containing living organisms, this warranty is limited to the "use by date" on the label.

FOR COMMERCIAL USE ONLY. KEEP OUT OF REACH OF CHILDREN. HARMFUL IF SWALLOWED. AVOID CONTACT WITH SKIN, EYES, OR CLOTHING.
